

Happy Two Years In Office

Rt. Hon. Eze Robinson O. Robinson
Executive Governor, Rivers State

I have lived long enough to know that God Almighty strictly purposed you to do what you're doing but first allowed

All manner of pretenders on the throne

And true to type they played on our collective will and aspirations

And then, out of obscurity he brought you to limelight knowing that you are the only man for the job

We are happy today Rivers State is on the threshold of history many firsts have been achieved in several sectors

Our health sector is second to none in the federation

Our education system will soon blossom

Massive reconstruction is going on in the area of road

reconstruction and renovation

Before soon no doubt, the Garden City' status will be restored to Port Harcourt.

I have no doubt in my mind you're destined to be the leader of our people to the Promised Land.

The fight and battle to enthrone you attests to this

On this premise therefore, I, Eze Robinson, Eze Ekpeye Logbo of Ekpeye Land in conjunction with my wife, elders in council and the good people of Ekpeye kingdom rejoice with you as you successfully mark your second year in office.

Congratulations!
