# TWO YEARS *of* SERVICE DELIVERY

**T**o many, the challenges on assumption of office were not only scarring, but insurmountable, but today, you have surpassed the challenges and gone ahead to deliver dividends to the hitherto yearning people of our state, which among others is the fulcrum of your being in governance.

No doubt, Your Excellency, your emergence heralded a new dawn in the many years of long trek to the promise land which of course, you have almost taken our dear people of the state to.

Your Excellency, we thank the Almighty God that people, if not everybody in our dear state and beyond are singing new songs.

Go ahead in your resolve to deliver the dreams.
